EasyRide
Make your ridesharing easier !

An Ecological, Ethical and Social
Ride-Sharing NFC-Enabled System
- NFC Global Competition 2009 - Research Track -

EasyRide is a new, dynamic ride-sharing system based on *NFC* technologies. It provides software infrastructure to implement dynamic carpooling on a metropolitan level. The system is privacy friendly and will be hosted by the open-source project *OW2 Aspire RFID*.

Features:
- NFC phones
- Privacy Friendly
- Social Networking
- Dynamic ride-matching system

EasyRide

Team:
• *Student Staff (Polytech'Grenoble)*
Audrey COLBRANT
Clément COLLIN
Elodie NOUGUIER
Ludovic PLANTIN
Samy SIDOTMANE
Khalid ZAIDA

• *Supervisory Staff (UJF)*
Didier DONSEZ
Pierre-Yves GIBELLO
